

AUTISM AWARENESS MONTH

Autism Awareness Training Day For Parents & Families 19th April

To celebrate National Autism Awareness Month, Fairway Training are offering parents and families the opportunity of Autism Awareness Training with our lead trainer Danny Page.

This half day course is suitable for parents and families of children who have had a diagnosis of ASD - Autistic Spectrum Disorder including Asperger's Syndrome.

For us, Autism Training is so much more; it's not just about helping people understand the most modern and relevant research into the field; it's about changing attitudes. We know that massive improvements are possible in people's lives and we promote this throughout our training. We don't simply repeat the mantra of "routine, routine, routine," we embrace developmental steps that can alter the course of a person's life. Our training is based on the most recent research in Autism and is a must for all parents and families.

The course will be run by Danny Page (MSC) our lead trainer at Fairway Training. Danny was a Care Manager for people with Autism for many years. He is a very experienced trainer and has both professional and personal interest in Autism that shows in his passionate delivery of the course.

Just some of our feedback:

"Very good course & well taught"

"Danny must come again"

"I now have more knowledge on Autism which I will use everyday"
